4th year B.Tech student in Artificial Intelligence & Data Science with hands-on experience in Python, machine learning, FastAPI backend development, RAG workflows, and LLM-based applications. Interested in building production-ready AI products that solve real-world problems.

Education

- B.Tech, Artificial Intelligence & Data Science (*Currently pursuing*) 2024-27
Chandigarh Group of Colleges, Landran
- Diploma, Computer Science & Engineering 2021-24
Mehr Chand Polytechnic College, PSBTE Board
- 10th (Secondary Examination) 2021
CBSE Board

Technical Skills

- Languages – Python, SQL, JavaScript, TypeScript, Golang
- AI/ML & GenAI – ML, Deep Learning, NLP, RAG, Embeddings, Vector Databases, Gemini API, Prompt Engineering, Model Evaluation
- Backend & APIs – FastAPI, REST APIs, Pydantic, JWT Authentication, API Integration
- Frontend – React.js, Next.js, Tailwind CSS
- Databases & Tools – SQLite, MongoDB, ChromaDB, Git, GitHub, Swagger UI, Hugging Face, Vercel

Relevant Project Experience

InternAI - AI-Powered Resume & Internship Assistant Apr 2026 – May 2026

- Built an AI-powered resume and job matching platform using the Gemini API, FastAPI, and React that extracts key skills, calculates a match score, highlights gaps, and generates tailored application answers.
- Tech Stack: Python, FastAPI, Next.js, React, TypeScript, SQLite, REST APIs, Gemini API, Prompt Engineering.

Hybrid Phishing Detection System Jan 2026 - Apr 2026

- Built a machine learning-based phishing detection system that analyzes suspicious URLs and emails using NLP, feature extraction, a FastAPI backend, and a web frontend.
- Tech Stack: Python, Scikit-learn, FastAPI, Next.js, React, TypeScript, Tailwind CSS, Hugging Face, Vercel.

Social Video RAG Chatbot May 2026

- Developed a RAG-based chatbot with FastAPI, ChromaDB, and embeddings that answers questions from video transcripts using source-backed retrieval, streaming responses, and session memory.
- Tech Stack: Python, FastAPI, ChromaDB, Embeddings, RAG, LLM Integration, Next.js, TypeScript

Internships & Experience

Artificial Intelligence Intern - Unified Mentor Pvt. Ltd. Feb 2026 – May 2026

- Built AI/ML projects using real-world datasets, including restaurant growth prediction and demand forecasting.

Data Science Trainee - ThinkNEXT Technologies Pvt. Ltd. Jun 2025 - Jul 2025

- Built regression-based ML models using Python with preprocessing, feature engineering, and model evaluation and gained practical exposure to data-driven problem-solving and ML project workflows.

Certifications

- Prompt Engineering - Vanderbilt University
- AI Agent Developer - Vanderbilt University
- Gen AI Agents - Google
- Generative AI Leader - Google
