PROFESSIONAL SUMMARY

AI & Data Science student with hands-on experience in machine learning, full-stack development, backend APIs, and LLM-powered applications. I like building practical AI tools, REST APIs, dashboards, resume-job matching systems, predictive models, and deployed web apps using Python, FastAPI, Next.js, React, TypeScript, SQL, Gemini API, and modern development tools.

TECHNICAL SKILLS

- **Programming Languages:** Python, Golang, SQL, JavaScript, TypeScript
- **Frontend Development:** HTML, CSS, React.js, Next.js, Tailwind CSS
- **Backend Development:** FastAPI, Node.js, Express.js, REST APIs, Pydantic, API Integration
- **Databases:** SQLite, MongoDB
- **AI/ML & LLM Engineering:** Machine Learning, Deep Learning, NLP, Gemini API, LLM Integration, Prompt Engineering, Skill Extraction, Match Scoring, Classification, Regression, Time-Series Forecasting, Feature Engineering, Model Evaluation
- **Libraries & Tools:** Scikit-learn, TensorFlow/Keras, Pandas, NumPy, Streamlit, Git, GitHub, VS Code, Swagger UI, Vercel

EXPERIENCE & TRAINING

Artificial Intelligence Intern – Unified Mentor Pvt. Ltd.

Feb 2026 – May 2026

- Built AI/ML projects using real-world datasets, including restaurant growth prediction and demand forecasting.

Data Science Trainee – ThinkNEXT Technologies Pvt. Ltd.

Jun 2025 – Jul 2025

- Built regression-based ML models using Python with preprocessing, feature engineering, and model evaluation and gained practical exposure to data-driven problem-solving and ML project workflows.

RELEVANT PROJECT EXPERIENCE

InternAI – AI-Powered Resume & Internship Assistant

Apr 2026 – May 2026

- Built a full-stack AI assistant that analyzes resumes against job descriptions, calculates match scores, identifies missing skills, and generates application answers and cover letters.
- Developed modular AI workflows for resume analysis, job parsing, match scoring, skill gap analysis, resume review, and content generation using Gemini LLM with mock-mode fallback and JSON validation.
- **Tech Stack:** Python, FastAPI, Next.js, React, TypeScript, SQLite, REST APIs, Gemini API, Prompt Engineering.

Hybrid Phishing Detection System

Jan 2026 – Apr 2026

- Developed an AI-powered phishing detection system achieving 94% classification accuracy using hybrid machine learning techniques.
- Built a FastAPI backend and responsive Next.js frontend for real-time URL/email phishing analysis, deployed using Hugging Face and Vercel.
- **Tech Stack:** Python, Scikit-learn, FastAPI, Next.js, React, TypeScript, Tailwind CSS, Hugging Face, Vercel.

Smart Leads Dashboard

May 2026

- Built a full-stack lead management dashboard with authentication, role-based access control, and protected routes.
- Implemented lead CRUD operations, search, filtering, pagination, CSV export, and responsive dashboard UI.
- Developed REST APIs and added database integration and clean technical documentation.
- **Tech Stack:** React, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, bcrypt, Vercel, Render

EDUCATION

- B.Tech — Artificial Intelligence & Data Science , Chandigarh Group of Colleges (CGC), Landran
Currently Pursuing
- Diploma — Computer Science & Engineering, PSBTE

CERTIFICATIONS

- AI Agent Developer – Vanderbilt University
- Generative AI Leader – Google
- Prompt Engineering – Vanderbilt University
- Gen AI Agents – Google
