PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science student with hands-on experience in Machine Learning, Deep Learning, Full-Stack Development, Backend APIs, and Data Analytics. Skilled in building AI-powered applications, REST APIs, predictive models, and scalable web applications using Python, Golang, React.js, Next.js, FastAPI, and SQL. Experienced in data preprocessing, feature engineering, model deployment, authentication systems, cloud deployment, and real-world AI/ML workflows. Strong foundation in software engineering, backend development, web technologies, and end-to-end project execution.

TECHNICAL SKILLS

- **Programming Languages:** Python, Golang, SQL, JavaScript, TypeScript
- **Frontend Development:** HTML, CSS, React.js, Next.js, Tailwind CSS, HTML5, CSS3, Responsive UI Design
- **Backend Development:** REST APIs, JWT Authentication, Role-Based Access Control (RBAC), API Integration, SQLite, Authentication Systems
- **Data Science:** Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, Statistical Analysis
- **AI/Machine Learning:** Machine Learning, Deep Learning, NLP, Predictive Modeling, Classification, Regression, Time Series Forecasting, Feature Engineering, Model Evaluation, Neural Networks
- **Frameworks & Libraries:** Scikit-learn, TensorFlow/Keras, Pandas, NumPy, FastAPI, Streamlit, React.js, Next.js
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, Hugging Face, Vercel, VS Code

EXPERIENCE & TRAINING

Unified Mentor Pvt. Ltd. – Virtual

Feb 2026 – May 2026

- **Artificial Intelligence Intern,** Built AI/ML projects using real-world datasets, including restaurant growth prediction and demand forecasting.
- Performed data preprocessing, EDA, feature engineering, model training, and evaluation using Python, Pandas, NumPy, and Scikit-learn.
- Developed predictive models and interactive dashboards to generate business insights.

ThinkNEXT Technologies Pvt. Ltd., Mohali

Jun 2025 – Jul 2025

- **Data Science Trainee,** Completed industrial training in data analysis, machine learning, and predictive modeling.
- Built regression-based ML models using Python with preprocessing, feature engineering, and model evaluation.
- Gained practical exposure to data-driven problem-solving and ML project workflows.

O7 Services, Jalandhar

Jul 2023 – Aug 2023

- **Python Trainee,** Completed Python programming training focused on core concepts, mini projects, and problem-solving.
- Gained hands-on experience in data handling, logic building, and basic project workflows.

RELEVANT PROJECT EXPERIENCE

Hybrid Phishing Detection System

Jan 2026 – Apr 2026

- Developed an AI-powered phishing detection system achieving 94% classification accuracy using hybrid machine learning techniques.
- Performed data preprocessing, feature extraction, and model evaluation on phishing and legitimate URL datasets.
- Built a FastAPI backend and responsive Next.js frontend for real-time URL/email phishing analysis.
- Deployed the backend on Hugging Face and the frontend on Vercel for public access.
- **Tech Stack:** Python, Scikit-learn, FastAPI, Next.js, React, TypeScript, Tailwind CSS, Hugging Face, Vercel

Smart Leads Dashboard

May 2026

- Built a full-stack lead management dashboard with authentication, role-based access control, and protected routes.
- Implemented lead CRUD operations, search, filtering, pagination, CSV export, and responsive dashboard UI.
- Developed REST APIs and integrated the frontend with the backend for efficient lead management workflows.
- Added database integration, deployment setup, and clean technical documentation.
- **Tech Stack:** React, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, bcrypt, Vercel, Render

InternAI Resume Analyzer

Apr 2026 – May 2026

- Built an AI-based resume and job matching system to compare resume text with job descriptions.
- Implemented skill extraction, candidate-job comparison, match scoring, fit-level analysis, and improvement suggestions.
- Developed backend scoring logic and integrated APIs for structured frontend result display.
- Designed the project as an AI-assisted workflow for internship applications and skill gap analysis.
- **Tech Stack:** Python, FastAPI, Next.js, Tailwind CSS, SQLite, REST APIs, AI Workflow Logic

Golang Backend Authentication API

May 2026

- Built a backend authentication service in Golang with signup, login, and secure password hashing.
- Implemented JWT authentication, middleware-based route protection, and role-based access control.
- Created User and Admin roles, allowing users to access profiles and admins to view all users.
- Used SQLite for storage with proper error handling, clean project structure, and API testing documentation.
- **Tech Stack:** Golang, SQLite, JWT, bcrypt, REST APIs, Middleware, GitHub

EduPro Demand Forecasting

Feb 2026 – Mar 2026

- Built a time-series forecasting web app to predict future demand and revenue trends for educational services.
- Performed data cleaning, EDA, feature engineering, model training, and evaluation on historical demand data.
- Created an interactive Streamlit dashboard to visualize forecasts, demand trends, and business insights.
- Achieved 9% MAPE, supporting accurate and data-driven planning.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Time-Series Forecasting, Streamlit, Data Visualization

SocialMedia Intel Sentiment Platform

Aug 2025 – Dec 2025

- Built an end-to-end sentiment analysis platform for classifying text into positive, negative, and neutral sentiments.
- Used Apache Spark for distributed data processing and Parquet for optimized storage.
- Trained a GRU-based deep learning model using TensorFlow/Keras on large-scale text data.
- Deployed real-time inference using FastAPI and built an interactive R Shiny dashboard for predictions and metrics.
- **Tech Stack:** Python, Apache Spark, Parquet, TensorFlow/Keras, GRU, NLP, FastAPI, R Shiny

EDUCATION

- B.Tech — Artificial Intelligence & Data Science ,
Chandigarh Group of Colleges (CGC), Landran
Currently Pursuing
- Diploma — Computer Science & Engineering, PSBTE
- Class X — CBSE

CERTIFICATIONS

- AI Agent Developer – Vanderbilt University
- Generative AI Leader – Google
- Prompt Engineering – Vanderbilt University
- Gen AI Agents – Google
